

AVITA MODUS MH100

Happiness is only real when shared and, we believe, so does fitness. Therefore, with a focus on fitness as the core of a happy family and a modern home, we create AVITA MODUS Smart Scale MH100 to make fitness a real family connection beyond a personal lifestyle.

How does it work for everybody?

One Step. Full Scan.

As straightforward as putting your feet on it the usual way, the Smart Scale immediately puts you through a weight scan that also tracks and records all manner of body statistics for making useful health reports and keeping track of your fitness progress.

Information

Health Report

Growth Tracker

• heart rate • BMI • BMR • body fat % • hydration % • muscle % • bone %

360 Smart Connectivity

Fitness data collected by the Smart Scale are not only displayed on its built-in LCD screen. Through Bluetooth transmission, it also gives you a close 360-degree health monitoring on a good range of smart devices of your stylish way of living.

Get connected. Get bonded.

The Smart Scale with a contemporary glass design is an ideal fitness companion at home. It allows each family member to make individual fitness records. When connected to an APP User Interface of your smart devices, fitness data of multiple users can be shared and reached within touch – for a stronger family bond to track, motivate and improve together.
