## WE ARE NEXSTGO. WE DO WHAT THE GIANTS CAN'T.

We are an international startup committed to bring new revolutionary experience in technology through introducing a wide product range that includes PC, smart home, IoT, artificial intelligence and corporate solutions. Nexstgo is a startup that breaks through market frameworks, and creates values to users that surpass traditional limitations.

## NEXSTGO *SU* SERIES BUILT FROM A STARTUP, BUILT FOR THE STARTUPS.

We understands the pain points and needs of startups, so we are determined to support startups by creating devices optimized for them to achieve their business goals.

Nexstgo SU series, derived from 'Start-Up', is a business class Laptop PC built and engineered to suit the needs of start-ups and SMBs to the fullest.

## NO OPTION IS NOT AN OPTION.

Available from Intel Celeron up to Core i5, 14" to 15" screen size, SATA to SSD + SATA hybrid HDD..... Nexstgo SU series offers plenty of configuration options according to your business needs and budget constraints.

### BE GENTLE TO YOUR EYES

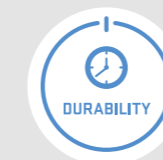

Nexstgo SU series equips high quality FHD IPS display which offers unprecedented viewing experience and comfort to your eyes.

### YOUR WORKSPACE IS ANYWHERE.

By incorporating full size keyboard with numeric pad (SU02 only), extra-large multi-touch touchpad with click keys, and extensive connection ports including USB-C, USB 3.0, full HDMI, Ethernet and D-Sub, Nexstgo SU series is created as a full feature desktop replacement and offers unmatched mobility.

### YOUR DURABLE BUSINESS PARTNER

Be worry free about your device and focus on developing your business, as Nexstgo SU Series is built to last. The hinges are made to endure multiple times of opening and closing every day, and the housing is also extremely durable.

### DON'T LET BLOATWARE UPSET YOU ANYMORE

Save your time and storage space for better use. Unlike most Laptop PCs in the market, Nexstgo SU series minimizes unnecessary software and apps preloaded on the device. So you do not need to waste your effort removing bloatware from your new PC or be concerned about possible security risks caused by that.
